

Lonely Spot (Lyrics by Nic Höning)

Sticking with the second best is wrong medication
'cause every lie in love breaks bricks from that timeless mansion
I hate to hear about affairs all day and night they say

Jasmin had that spin for the trapped situation
and it sounds too bad that Sarah used to say that I'd need some patience
but when I'm dead I hope they say "Those cycles seldom made him blue."

Still by every lie
you're just a lonely spot in the world
Stay right where you are
protect your only spot in the world

This city is a run, this city is a fun
and the rearview mirror shows a frozen desert son
I reached out and I felt that we don't wear no crown at all

Still by every lie
you're just a lonely spot in the world
Stay right where you are
protect your only spot in the world
